

# CONNECT CHARTER SCHOOL SOCIETY

Policy Title: **Crisis Management**

Policy No. **2.03**

**RATIONALE:** Crisis management planning at the Connect Charter School is based on the premise that the physical and emotional well being of students and staff are of primary importance and that the safety and security of students and staff is an integral part of an optimal learning environment.

**POLICY:** The Board will make all reasonable efforts to ensure that crisis management plans commensurate with the needs of the Connect Charter School are developed. The Board through the school's administrative staff will oversee the implementation of the Crisis Management Plan.

## **DEFINITIONS:**

Crisis - For the purposes of this policy statement, the word "crisis" is defined as any unusual situation, falling under or impinging on the jurisdiction of the school that could interfere with the wellbeing of students and staff. This would include, but is not limited to, events such as interruption of essential services to the school, fire, violence, threats, serious illness or accident involving members of the school community, and crisis in country or community.

## **PRINCIPLES:**

1. Minimizing risk and limitation of harm are fundamental considerations when developing a Crisis Management Plan.
2. Safety rules for classes and the school at large are part of crisis management.
3. While it is impossible to predict the nature and scope of all potential crisis situations, proper planning can facilitate an appropriate response to crisis.
4. Staff must understand that the existence of a Crisis Management Plan does not preclude the use of professional judgment to modify the plan when it is warranted.
